

— PROFILE

Full-stack developer — 7 years across multiple industries, with a strong front-end leaning. I take a need from the root: client or team discovery, **specification**, development (Vue/Nuxt, Symfony), QA and **production release**. I work with **Claude Code** daily — mastery built on my own time: agent scoping, systematic reviews, tests. Multiplied pace, kept rigour.

— EXPERIENCE

FRONT-END DEVELOPER, WEB & MOBILE10/2025 — 05/2026

SPV INFORMATIQUE — MULHOUSE, FRANCE

- Migrated a CSHTML / jQuery environment to Vue.js.
- Major mobile releases with Ionic and Angular — shipped to Google Play & App Store.
- Built and deployed a complete website with Nuxt.js.

PHP / PRESTASHOP DEVELOPER01/2025 — 10/2025

VISIOFACTORY — MULHOUSE, FRANCE

- Contributed to the PrestaShop 1.6 → 8.2 migration.
- Tracked down complex bugs — platform stability and performance.

FRONT-END DEVELOPER, WEB & MOBILE05/2022 — 10/2024

VIVOCAZ — SOISSONS, FRANCE

- Vue.js / TypeScript front end — SaaS interfaces for vehicle fleet management.
- Native iOS in Swift for a large part of the mission — through to the app's release.
- Docker, Git-based CI/CD.

FULL-STACK DEVELOPER06/2019 — 12/2021

OLIHOST — SOISSONS, FRANCE

- Custom business software — Symfony 3/4/5, PHP · WordPress site portfolios.
- Windows Server / Linux administration.

— AUGMENTED DEV

Claude Code — daily practice. Agent scoping, CLAUDE.md, systematic reviews, tests. This CV and my portfolio come out of that pipeline (HTML → PDF, Nuxt).
